PROFESSIONAL PROFILE

Full Stack Developer and University Technician in Computer Application Development. I have experience building end-to-end web applications using React, Node.js, Express, Java (Spring Boot), and Supabase. I specialize in RESTful API design, software architecture, and the integration of Artificial Intelligence tools to optimize processes and build more efficient products.

WORK EXPERIENCE

Freelance Full Stack Developer | E-commerce Project

2026 – Present

Designed and implemented a custom e-commerce platform using React, Node.js, Express, and Supabase.

Developed both backend and frontend architecture, integrating user authentication, an admin panel for inventory management, and the shopping cart flow.

Optimized image and resource loading, improving application response times and user experience.

Integrated AI tools and the MCP protocol for operational process automation and efficient data management.

EDUCATION

University Degree in Computer Application Development | Universidad Nacional del Centro de la Provincia de Buenos Aires | In progress, started 2023

CERTIFICATIONS & COURSES

Introduction to AI Development: From 0 to Production | BIG School | March 2026

Developer Boost 2.0 | Tandil Technology Cluster | 2026

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, PHP, SQL, HTML5, CSS3

Frontend: React, Angular, Tailwind CSS, Vite, Responsive Design

Backend: Node.js, Express, Spring Boot, REST APIs, Microservices

Databases: PostgreSQL, MySQL, Supabase

Tools & DevOps: Git, GitHub, Docker, Postman, Swagger

AI & Automation: LLM Integration, Prompt Engineering, MCP, RAG, AI Workflows
